**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election without traverse of Group I, claims 1-13 in the reply filed on August 30, 2007 is acknowledged. Applicants note that additional claims were recited which did not belong in the restriction. Examiner agrees with the restriction outline set forth in the response dated August 30, 2007. ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Tanox Inc. (WO 99/55735).

Tanox Inc. (Tanox) teaches a method of screening for agonistic antibody by screening cell proliferation (page 13) and immunoglobulin expression library (page 9). The receptor immunogen expressed in the cell can be recombinant cells expressing the receptor including analogs and fusion proteins (pages 10-12). Single chain, chimeric and humanized antibodies are used or generated in this method (pages (4 and 9).

2. No claims allowed.
